From the Writing Teacher

by Pam Prokop

For the long-time readers of *Perspectives*, you will notice that there is a change in the format. It is with great sadness to announce that Morgon Mae Schultz is no longer the editor of *Perspectives*. With the increase in her freelance editing, Morgon Mae felt that she no longer has the time to devote to teaching a journalism class to Level 7 in order to produce the newsletter.

Beginning with this issue, *Perspectives* will showcase compositions from Levels 4, 5, 6, and 7 that have struck me as particularly well-written, fun, insightful, or just plain good. Sometimes there may be a theme that connects the compositions. I will do very little editing on the students' work. I hope you enjoy the new format!

My favorite season is spring because its not hot and its not cold. Spring is fresh because of the rain. Sometimes it's a little bit chilly. The Earth is starting to come back from the freezing temperatures. Spring is bright sunshine, beautiful. Feels new and fresh again. The trees are greening and grass is coming up. All flowers are beautiful. The people put away a heavy coats and heavy boots. People start wearing light sweater and lighter shoes, also long skirts. Also people can start doing exercises and they can take their bicycles outside. That's why spring is my favorite season.

Picnic is fun because I meet all my family to see each other and eat together. We eat sweet like biscuit. We order restaurant for food. We talk about the problems.

During the picnic you don't have to wear jacket or scarf, but I can wear open shoes. So I can dress up well beautiful.

Finally I can do a lot of fun. During the picnic I walk all around the Lake Harriet. I love the picnic, especially when all my family come together.

Level Seven is pre college so if you pass level Seven everything will be easy and level Seven is optimistic to pass their grade.

Reading is important because it affect your whole life and everything you want to do. I think reading is very important for everyone to enhance their method of learning. For me, personally, it has helped me in my developmental stages as far as being successful in life. Reading is important! If you could not read then you could not write. If you could not write then you could not use most means of communication.

Fashion Designer is the Job I Want

Essay practice by Fuad Osman (Level 7)

I like to be challenged! The job I would like to have in the future is a fashion designer. I really want to be a fashion designer for three reasons: I love clothes; I sew a lot of clothes, and have a lot of designs in my mind. This is what I desire!

I love clothes so much! The clothes are my favorite hopes. I like to go to fabric stores, and buy the best material to make fashionable dresses. I watch all the fashion shows. I adore fashion designers. The new styles and the old styles are beautiful. I like to change my style every day. I like to be elegant all the time, and that makes me feel good. The clothes are wonderful to me. And, that is why I like to be a fashion designer.

I know how to sew clothes. When I work with a sewing machine, I don't feel bored. I do have a problem, however, with cutting the cloth. But I never give up and I try to practice much of the time. I sew my own styles, and that gives me an opportunity to be a fashion designer. I am happy when I am sewing and styling clothes.

I have a lot of designs in my mind. I am an artist with my designs. I want to open a store for my designs in the future. In this way I can

help women look good and beautiful. I want to achieve my dream after college. I want to work hard to make my dream come true. I am interested in being a fashion designer. I already have many designs in my mind.

I would like to be a fashion designer in the future. Because I want to achieve my dream job, I need to have a lot of patience. Therefore, I need to work hard before I go to college: to make my English better and learn how to draw my designs.

The Job I Want

Essay practice by Shukri Sheriff (Level 7)

The job I want is to be a social worker. I want to help change my community because we have so many different problems, like family violence and youth problems. We need a strong community.

Somali youth need more education. Drug use and smoking increase every year. They killed more than 20 youth in the last five years, and not enough people get arrested. We need to stop violence. We have to work with the police on how to save our people and fight against crime. We need to know how to protect our youth. I think if they get more advocates, they will stay away from the dangers and the advocates will help save our teenagers. We need to also focus on the next generation.

I want to save my community. To live in peace is very important. We need to work together and make programs so my community will benefit. When we have problems, my community looks for solutions, like any other community. I want my community to get power and I want to work with my people. I want to also organize my community's opinions and create groups of people who have the knowledge to figure out ways to make our community better.

Another big problem we have is family violence. We did not have this before, but now we have many families who live separately or are divided. That is a big issue that has been raised in my community over the last ten years. I want to help the families. We do not yet have many people who are familiar with domestic and family law. I think if families get more recommendations for social workers, we can find the key to solving the problems. Then families can live together, live peacefully and respectfully.

This is why I choose to be a social worker. I think if my community can work together, we can solve many problems, including family violence. To have a strong community, that is my main goal.

Congratulations!

Hassan Omar, graduating class of 2010, successfully placed high enough on his Accuplacer tests to not have to take any ESL classes at MCTC!
