

Now Accepting Referrals

Bar None Residential Treatment Center offers hope and a comprehensive array of effective children's shelter-care services. These services are individualized, culturally affirmative and designed to achieve successful results.

ShelterPlus is an innovative new shelter care services model that meets a growing demand within our community. It focuses on skill development and identification of needs so that youth may transition into the services they could benefit from more smoothly and quickly. **ShelterPlus** can create more continuity of care for both the youth and their family. Ancillary services may be available for youth and their families to assist with transitions to lower or higher levels of care.

In a stage approach, residents will develop foundational skills and maintenance in:

- Safety Skills
- Relaxation and Regulation Skills
- Emotion Management Skills
- Communication and Empathy Skills

Norris Lake ShelterPlus
