Division Director

Gary Olson

Outcomes

Our children learn to change dysfunctional patterns of behavior, interaction and communication in order to lead successful lives in their homes and community.

Testimonials

"Everything happens for a reason and I'm so thankful for what the foster parents and the Volunteers of America-MN social worker have done."

- Birth parent of a teenage girl with a history of behavior and mental health issues

"When I graduated and moved away to go to college, it was exciting. At Christmas I went back to visit my foster parents and it was like coming home"

- John, Former Foster Care Youth

Uplift All Lives

What We Believe

The Social Workers and the Foster Parents within Community Family Supports at Volunteers of America provide exceptional care to the youths in the Foster Care Program. We believe that each person, regardless of limitations, deserves to be treated with respect and dignity. This philosophy is visible in every interaction.

Emergency Shelter Foster Care

Provides short term foster care for children in Hennepin County who are in immediate need of a home.

Foster Care

Provides residential care to children with emotional and/or behavioral difficulties who cannot live with their birth parents. We license, train, monitor, and support foster families who provide care. Our foster homes are located in the Twin Cities metropolitan area, within a 60 miles radius of our program office in Edina, MN. Many of the children we serve have led traumatic, chaotic lives and have rarely experienced stability. Our foster parents and experienced social workers work together to provide these youth with acceptance, guidance, nurturing, and a stable home environment that will encourage healing and growth. A plan is developed for each child with goals in the areas of mental and physical health, education, independent living skills, crisis support, and spiritual and cultural needs.

If you are interested in making a referral to one of our foster homes, please call :

952-945-4168

Team Support

Foster parents work with a team that may consist of social workers, therapists, court representatives, family members, school professionals, and others who have an interest in the well-being of the foster children in their care. Each foster family is assigned to an experienced social worker that visits a minimum of twice per month and provides support and consultation during the entire time of placement. On-going training is also provided on related issues.

Foster Families

Foster Families are people who:

- May have children at home, grown children or no children of their own
- Are home during the day or have flexible work schedules
- Are couples or individuals
- Are of many cultural backgrounds

As a foster parent, you receive:

- The satisfaction of giving a child a chance for a better future
- Financial compensation
- Ongoing training, education and foster parent support groups
- Paid respite care
- An assigned social worker for support and consultation
- 24-hour/7-days a week emergency assistance
- Support from our Mental Health Clinic

If you would like more information about becoming a foster parent call Jolene Swan:
