

SUMMER MEALS UPDATE

Weekly food boxes for all children, 18 and under, will continue through at least Friday, July 24. Right now the meal distribution plan runs through the end of Minneapolis Public Schools summer school. MPS will keep the community informed as plans develop for August and beyond.

Each food box contains fresh produce and items for fourteen meals - seven breakfasts and seven lunches. Families are welcome to take one box per child, per week, and all families are welcome to participate in this program. Many of the items require refrigeration. Supplemental groceries are also available for families in partnership with The Sheridan Story, while supplies last. You can find the food distribution happening at schools and parks across Minneapolis Monday-Friday from 10 a.m. to 2 p.m. Just look for the yellow school bus. To keep families and staff safe, we provide contract-free pick-up.

Please visit the MPS website for pick-up locations, weekly food box menus, written and video heating instructions, and the latest updates: cws.mpls.k12.mn.us/covid19

Have a safe summer!
