VISION Communities where all lives are uplifted

VALUES Compassion, Integrity and Perseverance

MISSION We help people build hope, resilience and well-being

Volunteers of America®

MINNESOTA AND WISCONSIN

CENTER FOR EXCELLENCE IN SUPPORTED DECISION MAKING

For more than 40 years, CESDM (formerly Protective Services) has advocated for the most vulnerable and incapacitated members of the community, and their caregivers. These individuals may be experiencing issues including neglect of basic needs, abuse or exploitation, dementia/impaired cognitive functioning, lack of insight to needs, difficulty managing finances, isolation, lack of cooperation with family, friends or care providers, or need help with decision-making.

SERVING INDIVIDUALS AND FAMILIES

The Center for Excellence team consults with families and professionals, providing in-depth phone based consultation, information, advice, and referral, with an emphasis on identifying suitable alternatives to guardianship where possible. The Center Social Workers can also provide objective in-person assessments regarding need for guardianship and available alternatives — including facilitation of Health Care Directives and Supported Decision Making Agreements. Our Estate & Elder Law Services, also a part of Volunteers of America - Minnesota, provides legal and technical advice, as well as facilitation of legal tools such as Supported Decision Making Agreements, Power of Attorney and Health Care Directive documents, and where necessary, petitioning for guardianship/conservatorship.

In addition, the CESDM team offers a variety of training topics for professionals or community groups including supported decision-making, guardianship/conservatorship, less restrictive alternatives, rights of people under guardianship, and ethics.

FEES

Services are funded by, county contracts, client fees, and private donations.

Brief initial telephone consultation, advice, and referral, is at no charge. Fees for other services are based on type of service required.

IMPACTING THE COMMUNITY

There is strong and growing evidence that people with disabilities are happier, safer, and healthier when they are empowered to make choices about their own lives. WINGS MN (Working Interdisciplinary Network of Guardianship Stakeholders) was established as part of a national movement for improving guardianship and conservatorship practices. Co-convened by CESDM Director Anita Raymond, WINGS includes membership from legal, advocacy, court, state, county, and social service organizations.

WINGS Minnesota is dedicated to:

- Supporting guardians and conservators, particularly family members or friends, through education to better understand best practices and their responsibilities.
- Building awareness and processes that ensure that less restrictive alternatives are the default choice.
- Sustaining a cooperative conversation where all members work to improve outcomes and increase self-determination for individuals who may need assistance making legal or medical choices.
