COVID-19 Community Testing Sites

Minnesota is offering low-barrier, no-cost COVID-19 testing in Minnesota communities.

No-Cost, Low-Barrier Testing

Walk-ins are welcome at Minnesota's Community Testing Program sites. We strongly encourage you to sign up for an appointment using the registration link listed with each location. Signing up ahead of time helps avoid long lines and makes social distancing easier.

All costs for this test are covered by your insurance company or the federal or state government. Do not pay your insurance company or the testing provider for your COVID-19 test. There is no cost to you for this test. Insurance companies may send you an Explanation of Benefits or "EOB" showing the difference between the billed cost of this COVID test and what they have paid. It may even say that a portion is "patient responsibility." This is simply for your information. It is not a bill, and you should NOT pay anything. The testing company, Vault Health, accepts what your insurance pays as full payment.

Testing is available to anyone who believes they need a COVID-19 test, with or without insurance. Participants will be asked for their health insurance information so the state can bill their insurance company on their behalf. If a person is uninsured or for any reason insurance does not cover some or all of the cost, the state will cover the difference so testing remains available at no cost to everyone.

All tests at the state's community testing sites are polymerase chain reaction (PCR) tests, molecular tests that detect the virus's genetic material. PCR tests are the most accurate tests for detecting the virus that causes COVID-19. A positive PCR test result is considered a confirmed case of COVID-19.

You do not need to show identification to receive a COVID-19 test at a Community Testing Program site.

Is it safe to get a test in-person?

Minnesota understands the importance of safe testing facilities. Each community testing site is in a large space that allows for maximizing space, ventilation and distancing. You are encouraged to make an appointment to prevent crowding and long lines.

What if I am disabled or need assistance?

To request an Americans with Disabilities Act (ADA) accommodation or other accessibility needs for testing or vaccination sites, call the Minnesota Department of Health COVID-19 Public Hotline 1-833-431-2053 between 9:00 a.m. and 7:00 p.m., Monday through Friday and 10:00 a.m. and 6:00 p.m. on Saturdays. Please make requests 2-3 business days before the testing event to ensure time to coordinate accommodati
