WHY WRAPAROUND

High Fidelity Wraparound Program

Wraparound is an evidence and strengths-based approach to care planning that brings together youth, their families, and their support systems to address their complex needs in a sustainable way.

10 GUIDING PRINCIPLES:

- Family Voice and Choice
- Culturally Competent
- Team-based
- Individualized
- Natural Supports
- Strengths-based
- Collaboration
- Persistence
- Community-based
- Outcome-based

WHAT MAKES WRAPAROUND UNIQUE

Wraparound differs from many service delivery strategies, by providing a comprehensive, holistic, youth- and family-driven way of responding when a youth experiences serious mental health or behavioral challenges.

WHO WE SERVE

Hennepin County youth, along with their families, who:

- Are between the ages of 6 and 18
- Meet the criteria for Targeted Mental Health Case Management with a Diagnostic Assessment completed within the past 180 days

FEES

This program is free to participants and is financially supported by Medical Assistance, PMAP providers and funding from Hennepin County for uninsured or privately insured youth.

SERVICE SITE

Meetings will occur primarily in the community, in the family's home, and virtually; flexible scheduling is offered to meet the needs of families.

WHO PROVIDES WRAPAROUND

Wraparound Care Coordinators help families develop their Wraparound teams made up of both formal and natural supports, lead the Wraparound process, and ensure that families have access to the services and supports they need.

Certified Family Peer Specialists work one-on-one with the caregiver to provide parent peer support while collaborating closely with the Care Coordinator to ensure the Wraparound process flows seamlessly with open communication.
